TABLE OF CONTENTS

A Note from Kelli [Director]

Dagg Park Spray Ground has been open for the summer 2016 season. The City and Parks and Recreation Department have been experiencing exceptional success with this park. It is wonderful to watch the children enjoy the spray from Stevie the Stingray, Finn the Fun Fish, Tommy the Turtle, Martha the Manta Ray and many more features. This park has brought so many families outdoors and into the community that may not have had the ability to be outdoors and enjoying a special part of summer, water. The tower on the playground has been a challenge and thrill for kids of all ages, which is what playing outdoors is all about.

The department held its first Golazo Soccer Camp with professional soccer player Leo Gibson with the Comets. The players had such a great time learning skills, and practicing drills which will enhance their skill level for the fall season of soccer. Sports Coordinator Robert Wages and I spent a day with the campers working on drills and scrimmaging. I had forgotten how much running was involved in soccer!

Our summer events consisted of three Friday Night Concerts and two movies. We had to cancel a movie due to the extreme heat. These events are free to the community and offer something for everyone. We have a variety of events this fall for all ages, and we hope to see you there. Please see page 7 for more information.

A steering committee of City Council Members, Parks and Recreation Board members and staff have begun the early stages to design the new Parks and Recreation building which will be located in Macken Park on the south side of Clark Ferguson between the parking lot and Wheel Park.

There have been a lot of great changes to North Kansas City Parks and Recreation and we want to thank the City and Community for their support!
