

**NOTICE OF OPEN WORK SESSION OF THE
CITY COUNCIL AND THE PLANNING COMMISSION
OF THE CITY OF NORTH KANSAS CITY, MISSOURI**

**October 19, 2021
6:00 PM**

The tentative agenda of this meeting includes:

1. Call Meeting to Order

2. Ward Redistricting 

The U.S. Census Bureau conducts the decennial census every ten years to count every person. That data is then used by every level of government to adjust the boundaries of congressional districts, state legislative districts, and local wards. The process is required in order to meet the constitutional requirements of equal representation across all districts/wards.

The 2020 Census data was released in August and again in a more user-friendly format in September. Staff has been working with this data to provide information about NKC's population and to prepare for adjusting the ward boundaries. The new ward boundaries are adopted by ordinance after a public hearing. The new ward boundaries must be set prior to the opening of filing for the April 2022 election on December 7, 2021.

3. Adjournment

This open work session of the City Council and the Planning Commission of the City of North Kansas City, Missouri, has been duly called pursuant to the provisions of Section 2.04.030 of the Code of the City of North Kansas City, Missouri, by the undersigned Mayor of the City of North Kansas City, Missouri.

DONE this 15th day of October 2021, at 5:00 p.m.

Bryant DeLong, *Mayor*

Representatives of the news media may obtain copies of this notice by contacting:

Crystal Doss, City Clerk, City Hall
2010 Howell Street
North Kansas City, Missouri 64116
Telephone No. (816) 274-6000

MEMORANDUM

TO: Mayor and City Council

FROM: Kim Nakahodo, Interim City Administrator
Sara Copeland, AICP, Community Development Director

DATE: October 19, 2021

RE: Ward Redistricting

The U.S. Census Bureau conducts the decennial census every ten years to count every person. That data is then used by every level of government to adjust the boundaries of congressional districts, state legislative districts, and local wards. The process is required in order to meet the constitutional requirements of equal representation across all districts/wards.

The 2020 Census data was released in August and again in a more user-friendly format in September. Staff has been working with this data to provide information about NKC's population and to prepare for adjusting the ward boundaries. The new ward boundaries are adopted by ordinance after a public hearing. The new ward boundaries must be set prior to the opening of filing for the April 2022 election on December 7, 2021.

In rebalancing the wards, in addition to population equity, districts are to be compact and contiguous. In NKC, recent practice has been to divide the commercial and industrial districts without residents evenly between the four wards, which has resulted in a north/south orientation to the wards.

Staff prepared four draft ward maps as a starting point for discussion by the City Council. The four draft maps were released with a community survey on October 7, 2021. Of 44 survey respondents, half preferred Map C. The survey results and comments are attached to this memo.

Councilmember Graves supplied two additional draft maps to staff. Those are also attached as Map E and Map F.

Ward Redistricting

City Council Work Session
October 19, 2021

Agenda

1. Redistricting 101
2. Historical Perspective
3. 2020 U.S. Census Data
4. Draft Maps

Redistricting 101

Redistricting

The process of drawing new boundaries for districts used to elect members of a multi-member governmental body when changing the number of constituent districts or to equalize population among the districts.

Local Government Districts

We hold today only that the Constitution permits no substantial variation from equal population in drawing districts for units of local government having general governmental powers over the entire geographic area served by the body.

Avery v. Midland County, Tex., 390 U.S. 474, 484–85, 88 S. Ct. 1114, 1120, 20 L. Ed

Do Not Gerrymander

The word gerrymander (originally written Gerry-
mander; a portmanteau of the name "Gerry" and
"salamander") was used for the first time in the
Boston Gazette ... on 26 March 1812. The word was
created in reaction to a redrawing of Massachusetts
state senate election districts under Governor
Elbridge Gerry ... that redistricted Massachusetts for
the benefit of the Democratic-Republican Party.

When mapped, one of the contorted districts in the
Boston area was said to resemble a mythological
salamander. Appearing with the term, and helping
spread and sustain its popularity, was a political
cartoon depicting a strange animal with claws, wings
and a dragon-like head that supposedly resembled
the oddly shaped district.

The cartoon was most likely drawn by Elkanah
Tisdale.

10% Variation

“The total variation between two districts was 9.9%, but the average deviation of all House districts from the ideal was 1.82%. Only 23 districts, all single-member, were overrepresented or underrepresented by more than 3%, and only three of those districts by more than 5%. We are unable to conclude from these deviations alone that appellees satisfied the threshold requirement of proving a prima facie case of invidious discrimination under the Equal Protection Clause.”

White v. Regester, 412 U.S. 755, 764, 93 S. Ct. 2332, 2338–39, 37 L. Ed. 2d314 (1973)

Maximum Total Deviation < 10%

- Total Population \div Number of Districts = Ideal District
- (Largest District – Ideal District) \div Ideal = Max % Over
- (Ideal District – Smallest District) \div Ideal = Max % Under
- Max % Over + Max % Under = Total Variation
- Total Variation \leq 10%

Officials Represent People – Not Voters

- Census data reflects people in a location on April 1
- Includes those incarcerated at a location
- Includes students living at a location
- Includes homeless people sleeping at a location
- Includes non-citizens at a location
- Includes children at a location

STICK TO THE GOLD STANDARD: CENSUS DATA

- Every deviation or cherry picking of data increases risk

Voting Rights Act of 1965

The Voting Rights Act of 1965 must be considered when drawing wards, districts or zones. The Act invalidates any “voting qualification or prerequisite to voting or standing, practice or procedure” that results in a denial or abridgement of the right to vote because of race or color.

A violation is established if, based on the totality of circumstances, it is shown that the political processes leading to nomination or election in the political subdivision are not equally open to participation by members of a class of protected citizens in that its members have less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice.

Cracking & Packing

- **“Cracking”** is the practice diluting the voting power of a specific segment of the population (political party affiliation, racial group, etc.) by breaking up the group into multiple districts
- **“Packing”** is the practice of concentrating a specific segment of the population into one district to reduce their voting power in other districts.

Once all of the apartments currently under construction are counted in the next census, it'll be interesting to see how drastically these maps change.

I voted for D, because I'm aware of an apartments being constructed in each of what would be Wards 1, 2, and 3. Them all being under the 'target' leaves room for their growth. But if there are new apartments ALSO coming to Ward 4 (will One North have more?), then A is better as it's most even now, and all four will have new housing added so they hopefully grow relatively proportionally...

District #3 should include all of the residential area west of I-35. Otherwise, it looks like gerrymandering—the residents there all share common issues.

I don't like any of these maps because they all split up the Avenues (which I don't really like) and because of they way they split up the Avenues (by zig-zagging through). If the neighborhood must be split, can't we at least just split in one direction (either along an avenue or along one of the N-S cross streets)?

Do any of the maps account for registered voters as well as population? None of the maps make it easy for voters and council people. Map D is the most confusing which would cause many questions at the polls.

What Redistricting Map do you prefer?

Q2

Do you have any further comments that you would like to share with the City Council?

All four options are very similar and look to be minor tweaks of the same plan. Would there be any option to include more horizontal divisions of the wards? This might reduce some of the divide between areas.

What Redistricting Map do you prefer?

Q2

Do you have any further comments that you would like to share with the City Council?

Instead of designing Ward(s) 1, 2 & 3 in column like shapes..., what about doing them more East-West in rectangular and/or square like shapes?

Of what you proffer:

- Map C is least distorted/most contiguous of options;
- in 3 of the 4 options Ward 3 has least population;
- if you stay w/ column like Districts why not have Ward 3 go all way to northern boundary of city....., that may better equalize the population w/ the others.

Thanks for the opportunity to review and comment.

Lisa and Jesse - you're both doing a great job.

Wesley - I haven't forgot when you lumped homosexuals and pedophiles in the same category, and I hope no one has either.
